

Goal	Initiative	Progress - next 12 months	Progress - Towards 2029
<p>1. Strategic approach</p> <p>We have a planned approach to our work where we are innovative and forward thinking and at the forefront of leading practice.</p>	<ul style="list-style-type: none"> Review Mining Rehabilitation Fund Act 2012 (MRFA). Review of the Abandoned Mines Policy. Develop opportunities for Indigenous engagement in regional areas as part of AMP project execution. 	<ul style="list-style-type: none"> Consider the implementation of recommendations of the MRFA legislative review relating to the AMP. Abandoned Mines Policy review undertaken in line with the recommendations from the MRFA Review. Provide opportunities for on Country employment and local Indigenous business through contracts awarded under the AMP, ensuring scopes provide flexibility for contractor engagement with local Traditional Owners; and through early stakeholder engagement to maximise or create potential opportunities. 	<ul style="list-style-type: none"> Recommendations are actioned with legislative revision where required. Abandoned Mines Program implemented according to updated Policy and legislative requirement. Demonstrate increased opportunities created under the AMP projects for engagement and employment on Country.
<p>2. Engagement</p> <p>Our Stakeholders understand our approach, are aligned with the project, policy and legislative intent and are engaged in the process; we are transparent and</p>	<ul style="list-style-type: none"> Promote the work undertaken by the AMP; sharing learnings and project outcomes. Understanding AMP Prioritisation and 	<ul style="list-style-type: none"> Promote the Program through meeting external requests for media interview or presenting at conferences/workshops and via social media. Revised prioritisation approach available on the AMP web page. 	<ul style="list-style-type: none"> Program work and outcomes are well socialised and recognised externally. Prioritisation of AMP projects is transparent. Stakeholder engagement approach defined with plans

Goal	Initiative	Progress - next 12 months	Progress - Towards 2029
consistent in our approach.	project implementation. <ul style="list-style-type: none"> AMP Communication Plan. 	<ul style="list-style-type: none"> AMP communication strategy developed. Revision of the Communications Plan.	updated upon completion of each project stage.
3. Planning We ensure MRF funds are optimised.	<ul style="list-style-type: none"> Five Year Plan (5YP) and Budget - Demonstrated financial management through annual planning and delivery of the 5YP. 	<ul style="list-style-type: none"> 5YP developed annually. Yearly plan reviewed quarterly. 5YP submitted annually. 	<ul style="list-style-type: none"> MRF sustainable financial model developed to demonstrate robust longevity of the AMP.
4. Standards We have established standards for Abandoned Mine Features.	<ul style="list-style-type: none"> Technology lead approaches to identifying / quantifying risks associated with abandoned mine features. Leverage processes and standards established in other jurisdictions to inform AMP development of 	<ul style="list-style-type: none"> Development and implementation of contemporary and tailored approaches in the identification and mitigation of risks associated with abandoned mine features. Benchmark with industry representatives - closure, industry working on legacy features - workshopping with industry on legacy management. Investigate potential value associated with mine overburden and tailings 	<ul style="list-style-type: none"> Demonstrate remote landform monitoring platform to enable risk management associated with legacy tailings storage facilities. Demonstrate use of remote sensing applications in identifying and quantifying risk associated with silicate minerals (fibrous materials). Demonstrate use of remote sensing and drone applications in identifying and quantifying risk

Goal	Initiative	Progress - next 12 months	Progress - Towards 2029
	<p>standards and work processes.</p> <ul style="list-style-type: none"> Explore opportunities for industry to realise value from abandoned mine features. 	<p>supporting the circular economy of mine residues.</p>	<p>(geochemical and ground subsidence).</p> <ul style="list-style-type: none"> Cross-jurisdictional learning/benchmarking - apply knowledge gained from experience in dealing with abandoned mines in other states to avoid unnecessary trials and potential rework in the implementation of projects. Value of identifying potential opportunities through programs such as MIWATCH has been evaluated and where possible implemented.
<p>5. Safety</p> <p>Our safety requirements are well understood and practised.</p>	<ul style="list-style-type: none"> All contracts executed by the AMP can be demonstrated to meet Work Health and Safety Act 2020 (WHS Act) requirements. 	<ul style="list-style-type: none"> Analysis of safety management requirements under the WHS Act in line with AMP contracted activities under the MRFA. 	<ul style="list-style-type: none"> Safety is a priority in everything we do and is championed by all our people. Work health and safety considerations are embedded into actions and decision-making processes and can be demonstrated.
