- contract with others to provide services as a painter with a value of \$1,000 or more and the painting work is located within the area of the Board's jurisdiction; or

Period of registration

If the Board approves your application, registration will be granted for a period of three years.

Registration and application fees

Two fees are payable with this application, a registration fee and a non-refundable application fee. The registration fee is for three years. GST is not payable on the application or registration fee. If the Board does not grant your registration, the registration fee will be refunded.

Registration requirements

To be considered for registration you must:

- provide a complete application including payment of application and registration fees;
- have the required qualifications and experience;
- be a fit and proper person to be registered; and
- comply with any other requirements.

Complete your application

Your application cannot be processed unless all sections are completed, all attachments provided and fees paid.

Form 19: Registration – Painting practitioner (set 2)

Qualifications Set 2

Set 2 is the pathway to registration for people who have completed the Painters' Registration course or an equivalent qualification. The course required for registration as a painting practitioner under Set 2 is 52202 Course in Painters' Registration as described in the register published by training.gov.au.

- Attach a copy of the Certificate and/or Statement of Attainment as evidence of having completed the Course in Painters' Registration. Attached

The Board has discretion to consider alternative qualifications that it accepts as equivalent to the Certificate. The Board has endorsed the 51737 Course in Painters Registration and Certificate IV in Painters Registration as being equivalent to the required qualification. All qualifications must be obtained before applying to be registered.

Experience Set 2

Applicants under Set 2 must have the equivalent of five years full-time experience carrying out painting work. This experience is described in the Building Services (Registration) Regulations 2011 as "carrying out painting work for periods totalling at least the *equivalent of 5 years full-time covering a significant range of painting techniques*". Use the template at Attachment 1 to record your experience. Department staff will verify your experience.

Painting work

The Building Services (Complaint Resolution and Administration) Regulations 2011 describe painting work as the application of paint, wall paper, or a similar substance or material to a building or fixture.

Paint

Paint is defined as including varnish or stain.

Significant range of painting techniques

For the purposes of registration a significant range of painting techniques includes but is not limited to:

- applying paint by brush and roller;
- applying paint by spray;
- applying texture coat paint finishes by brush, roller and spray;
- applying stains and clear timber finishes;
- applying wall paper; and
- applying decorative finishes.

Carrying out building work

For registration purposes, carrying out refers to performing painting work as an apprentice or tradesperson. If you performed a variety of work on a painting project, some of it being carrying out painting work and some of it being other work, record the actual time spent in carrying out painting work.

Five years full-time experience

For registration you must submit your record of experience with a total of at least the equivalent of five years full-time experience in carrying out painting work. If you were not working full-time on a project calculate the portion of your time actually spent in carrying out painting work. If you worked overtime, you cannot allow more than one day for each day worked.

Work not included

Painting on anything other than a building or fixture is not painting work, for example marine or automotive painting is not credited towards registration.

For registration purposes, some painting industry work is not painting work. Some of the types of work that are not included in carrying out painting work are:

- industrial painting;
- the application of paint to a floor, path or driveway composed of concrete or a similar material;
- the application of a protective coating to a building which has first been treated by abrasive blasting or mechanical cleaning, if both processes are undertaken by the same contractor; and
- signwriting.

Not valid as experience

The Board does not recognise experience obtained while performing unlawful work such as performing painting work with a value over \$1000 when not registered. All experience must be independently verified. Do not claim experience that cannot be verified by an employer or other referee.

Statement of painting work – Attachment 1

Use Attachment 1 to record your experience, in date order, in carrying out painting work. Complete additional copies of the template to demonstrate at least five years of experience in carrying out painting work. Ensure that all experience claimed is independently verified by the employer, client or authorised representative. Alternatively, attach a reference verifying your experience claim. It is an offence to make a false or misleading statement in this application.
