Flow diagram for performance plumbing or drainage solution installations

Performance Solution developed

Licensed plumbing contractor completes a notice of intention to install a Performance Solution

Licensed plumbing contractor submits
a notice of intention to install a
Performance Solution along with
evidence, expert judgement,
Performance Solution fee and fixture fee
payment if relevant

Building and Energy technical staff consider if the evidence and expert judgment is sufficient and relevant to the Performance Solution

Building and Energy technical staff consider the information provided in developing an inspection program specific to the installation

Work commences

Work completed

Inspections undertaken as per inspection program up to six years after completion of work
