

**Energy Transformation  
Implementation Unit**

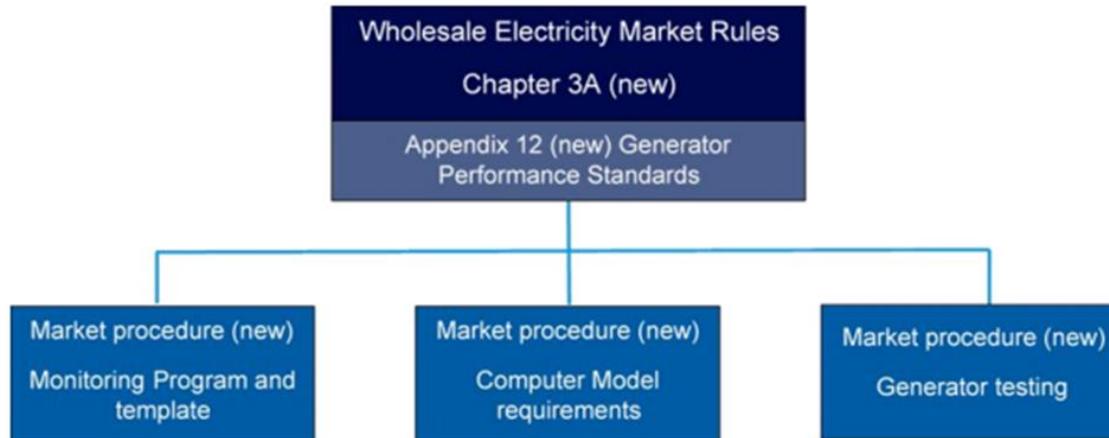

# **Draft Chapter 3A**

## **TDOWG**

16 June 2020

# Scope

Only for market participants with transmission connected generating units

Coming next:

- Appendix 12, providing the standards
- Transitional rules for existing generators
- WEM Regulation changes to allow for civil penalty provisions

# Overview

## Negotiation

- Between generator and Western Power
  - Ideal as a starting point
- Justifiable variations, but not below min
  - Requires AEMO approval

## Register

- Western Power develops/maintains
- Contains standards & monitoring plan on which compliance will be measured
- Generator must notify when registered information changes

## Self-monitoring

- AEMO developed template
- Generator submits for approval
- Scope for justifiable variations from template
  - May vary over time

## Compliance

- Must report all non-compliance
- Rectification plans with immunity
- Exceptions of serious or repeat breaches
  - Civil penalty provisions

# Next steps

Today

- TDOWG Chapter 3A page turn
- Chapter 3A released for written feedback

Mid-August 2020

- Written feedback period closes for Chapter 3A and Appendix 12

Early September 2020

- Round 2 written feedback period closes for Chapter 3A and Appendix 12

Mid-July 2020

- Appendix 12 released for written feedback

Late August 2020

- Round 2 written feedback for Chapter 3A and Appendix 12

Late September 2020

- Taskforce consideration
