 - Removal of the Reserve Capacity Auction

General feedback and AEMO's response

Summary of comment	AEMO's response
<p>Several paragraphs that were a direct copy of a clause from the WEM Rules had amendments proposed to remove repetition and improve clarity.</p>	<p>Generally, AEMO avoids repeating rules in procedures unless it is required for context. When WEM Rules are included in Procedures, AEMO avoids changing the clause in any way, and avoids paraphrasing, as this can lead to inconsistencies between Procedure and the WEM Rules.</p> <p>A references to WEM Rules in a Procedure is identified by bold and square brackets [Clause XXX].</p>
<p>A number of minor grammatical, formatting and structural changes were proposed.</p>	<p>AEMO appreciates all feedback and considers changes on a case-by-case basis. All submissions and AEMOs responses will be published by 1 March 2022 (location TBD).</p>
