

WEMP: RCM Limit Advice - consultation

WEM Reform Implementation Group (WRIG) 24th February 2022

Feedback and AEMO's response

Summary of comments	AEMO's response
Replace the term 'Block Load' with 'Steady Load' and update its definition	AEMO considered the potential implications and made the following changes: <ul style="list-style-type: none">• Update the definition of the Block load• Update paragraph 5.1.1 to allow NO to propose a list of loads, and be consulted should AEMO request modification
Suggestions: <ul style="list-style-type: none">• Including diagram explaining the processes between AEMO and NO• Update paragraph 2.1.2 to account for other communication methods• Update paragraph 3.1.1 to reflect the deferred date for 2022 cycle• Move paragraph 5.3.1 (d) up to become 5.3.1 (a), to signify the item as the prime key information	AEMO accepted the suggestions and updated the procedure accordingly.

Feedback and AEMO's response

Summary of comments	AEMO's response
<p>Drafting suggestions to:</p> <ul style="list-style-type: none">a) combine and simplify multiple paragraphs; orb) to simplify a specific paragraph.	<ul style="list-style-type: none">a) AEMO considers them having different requirements and therefore appropriate to address them separately. It is also to assist readers in identifying the requirements easily.b) AEMO considers it necessary to be retain the original drafting for clarity.
<p>Other comments</p> <ul style="list-style-type: none">1) Information provided under this Procedure should be in accordance with clause 2.27B.3(d), unless identified as Confidential by the Coordinator2) WEMP: Limit Advice Requirements to state it does not apply to RCM Limit Advice3) Legal confirmation on potential overlaps, the role of 2.27A.11(b) and cross referencing between 4.4B.3 and the term 'RCM Limit Advice'	<p>AEMO has noted the comments or provided clarification to relevant participants where required.</p>
