

Young People Managed in the Community Quarterly Statistics

September Quarter 2016

Quarterly Statistics

September Quarter 2016

Quarterly Statistics reports numbers of adults and young people who are in the care of the Department, either in custody or in the community, on a quarterly basis.

The statistics provided in this report are snapshot data current at midnight (12.00 am) on the last day of each quarter, comparison data for the same quarter of the previous year and the percentage increase or decrease on that data.

It also includes trend information for each quarter for the previous 5 years. A glossary of definitions is at the end of each report.

The statistics are accurate as at the time the data is extracted from the systems. The data systems are dynamic and are constantly being updated and data integrity improved. For this reason data may change slightly from month to month or quarter to quarter.

Young People Managed in the Community

The Department operates 35 youth justice offices in the community (8 in metropolitan area, 22 in regional areas and 5 in outreach locations).
