About this Report

The purpose of this report is to provide information about the work carried out by the District Court of Western Australia. A number of different statistics have been included that illustrate different aspects of the criminal court process. Care must be taken in interpreting these statistics. It is NOT possible to compare one indicator with another as the methods of counting are not aligned. Lodgments cannot be compared to Finalisations as they are counted differently: lodgments are based on a count of indictments lodged per individual accused whereas finalisations are based on the count of individual accused having one or more charges finalised on the same day. The charges that make up an indictment can be finalised on different occasions. One indictment with two co-accused will be counted here as two lodgments. If one charge within the indictment is finalised on a different date to the remaining charges then this will be counted as four finalisations.

Separate counting rules that best illustrate the work of the court is utilised for each statistic. Please read the counting rules on each page to help interpret the data.

Counting Rules:

- (a) These are the number of criminal cases lodged in the District Court of Western Australia, broken down by offence type.
- (b) The Australian and New Zealand Standard Offence Classification (ANZSOC) has been used to group offences. ANZSOC is a national standard developed by the Australian Bureau of Statistics. For more detail, please refer to www.abs.gov.au/ausstats/abs@.nsf/cat/1234.0
- (c) 'Case' refers to an accused processed through the District Court criminal jurisdiction with one or more charges lodged on any one occasion (e.g. an offender with 16 charges lodged on 14 February and same offender with a further 8 new charges lodged the following day but all heard together in Court on 15 March counts as two cases, not one case or 24 cases).
- (d) Offence descriptions used here are based on the ANZSOC Division (the top level of the 3 level ANZSOC hierarchy). See appendix for more details.
- (e) 'n/a' in the % Change column indicates that the calculation is 'not appropriate' given that the values of the columns in the table being compared are less than or equal to 10. Comparing values this low is statistically meaningless.

Total	2,459	2,058	1,822	1,901	1,968	3.5%	-20.0%

Counting Rules:

(a) Counts the number of "finalised accused (defendants)". The finalisation date is the date when all charges, under the same indictment, for the accused is finalised. Only the initial finalisation for the case is counted. The term 'finalised defendant' is used by the Australian Bureau of Statistics in its Criminal Courts Australia publication.

(b) Finalisation is defined as the determination of a charge or charges in the District Court criminal jurisdiction and involves any action, activity or court order that renders the charge unable to proceed any further in that jurisdiction. Examples of finalising actions are the imposition of a sentence, a finding of not-guilty following a trial or the withdrawal of the charge by the prosecution.

(c) The issue of an arrest warrant for failure to attend court when required to do so is not considered a finalisation, even though it renders the case unable to proceed.

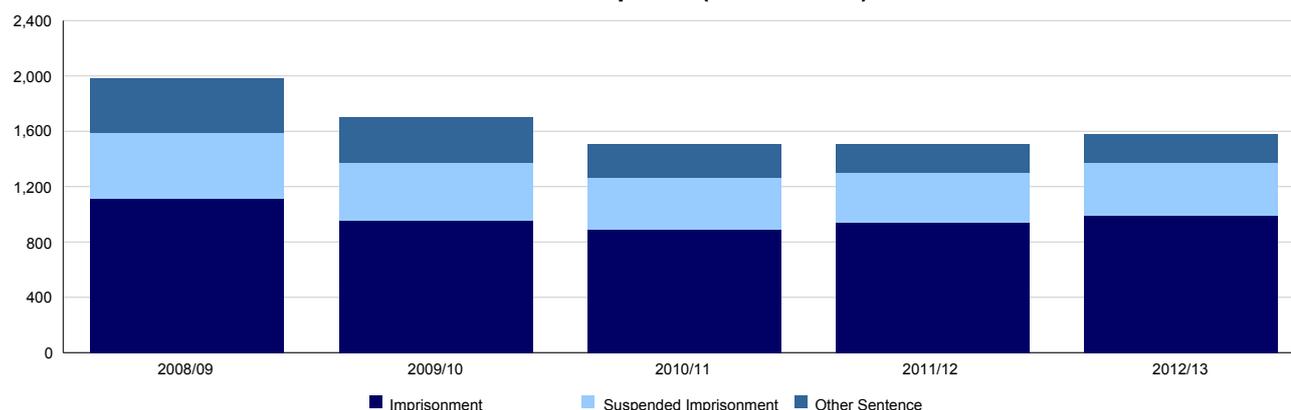

(d) Only the initial finalisation of a charge is counted here. Under some circumstances, a criminal case will be reactivated (for example: to make a minor order for the destruction of drugs or for the return of stolen property where that order had not been sought at the time of sentence) but they are generally consequential to the initial method of finalisation.

(e) The 'Method of Finalisation' used in the table above has been developed by the Australian Bureau of Statistics to assist with the comparison of court outcomes across Australia. Please refer to the appendix for more detail.

(f) 'n/a' in the % Change column indicates that the calculation is 'not appropriate' given that the values of the columns in the table being compared are less than or equal to 10. Comparing values this low is statistically meaningless.

Counting Rules:

- Counts only those finalised accused where a sentence was imposed by the District Court.
- Imprisonment means a term to be served in a prison.
- Suspended Imprisonment means that a term of Imprisonment has been ordered, but that the offender is released without having to serve the sentence in a prison provided that they do not reoffend.
- Intensive Supervision Orders and Community Based Orders usually have a community work component as well as a supervision component and may require the offender to comply with a programme condition (for example anger management, alcohol abuse treatment, etc) and may also require the offender to comply with a curfew condition. In addition to this order the court may require the offender to pay the costs of bringing the case to court or to pay a victim compensation.
- A Fine order may include an order requiring the offender to pay the costs of bringing the case to court or to pay a victim compensation.
- A Conditional Release Order and Good Behaviour Bond are orders that the offender agree to be of good behaviour for a defined period of time with the condition that if they fail to do so, will forfeit a set amount of money. In addition to this order the court may require the offender to pay the costs of bringing the case to court or to pay a victim compensation.
- 'n/a' in the % Change column indicates that the calculation is 'not appropriate' given that the values of the columns in the table being compared are less than or equal to 10. Comparing values this low is statistically meaningless.

Counting Rules:

- (a) Counts those accused that received a custodial sentence, broken down by the most serious offence sentenced on the date of finalisation.
- (b) As a finalised accused may have more than one charge, the most serious offence for which the offender has been sentenced is shown above. The most serious offence is derived by applying the National Offence Index, which ranks the Australian and New Zealand Standard Offence Classification (ANZSOC) offences from least serious to most serious.
- (c) The ANZSOC has been used to group offences. ANZSOC is a national standard developed by the Australian Bureau of Statistics. For more detail, please refer to www.abs.gov.au/ausstats/abs@nsf/cat/1234.0
- (d) 'n/a' in the % Change column indicates that the calculation is 'not appropriate' given that the values of the columns in the table being compared are less than or equal to 10. Comparing values this low is statistically meaningless.
