

## Rule Change Extension Notice: The Relevant Demand Calculation (RC\_2019\_01)

This notice of extension is issued under clause 2.5.12 of the WEM Rules.

**Submitter:** Clare Richards, EnelX

**Date submitted:** 21 June 2019

**Date of extension:** 30 June 2023

In accordance with clause 2.5.10 of the WEM Rules, the Coordinator has extended the timeframe for publication of the Draft Rule Change Report for the Rule Change Proposal titled “The Relevant Demand Calculation” (RC\_2019\_01) until **5:00pm on 30 September 2023**.

The dates for the subsequent steps of the rule change process have been adjusted accordingly.

### Reason for the Extension

The Coordinator is currently conducting a review of the Reserve Capacity Mechanism (RCM)<sup>1</sup>. Stages 1 and 2 of the RCM Review are addressing the matters raised by RC\_2019\_01 (among other things). Stage 2 of the RCM Review is expected to be completed by September 2023.

To allow adequate time for the completion of Stage 2 of the RCM Review, the Coordinator has extended the timeframe for publication of the Draft Rule Change Report for RC\_2019\_01 until 30 September 2023.
