

Council authorises in its submission on the WARR Act review that it;

- 1. Supports waste groups based on the regional subsidiaries model to be established, including a Southern Metropolitan Waste Group, based on a skills base and geographic representation involving local government and industry and to include a waste education role.**
- 2. Requests the State Government to increase the hypothecation of funds raised through the WARR Levy to facilitate enhanced strategic waste management outcomes and support local government in waste minimisation including recycling and research into emerging waste technologies.**
- 3. Requests that the WARR Act review include commercial and industrial waste and construction and demolition waste.**
- 4. Provides in-principle supports to WALGA's submission.**
