WORKPLACE GRANTS PROGRAM CASE STUDY

Oranje Tractor Wine

Award-winning Oranje Tractor Wine is a family run, organic and regenerative vineyard just outside Albany. Set in about 8ha, it features a wide variety of fruit trees as well as seasonal vegetables and herbs.

With the vineyard already carbon negative thanks to extensive tree planting, helping the transition from fossil fuel vehicles to EVs by installing an EV charger is an extension of Oranje Tractor Wine’s sustainability approach.

Making the EV transition is a key step towards mitigating climate change. Providing a high quality, reliable charger for customers sends a subtle message and provides early adopters of EV technology with a free charge while they visit.
