

Local Emergency Management Arrangements Guideline

RESPONSIBLE AGENCY

APPROVED BY

State Emergency Management Committee RESOLUTION NUMBER

32/2021 DATE OF APPROVAL 2.06 DATE OF EFFECT REVIEW DATE

22 JANUARY 2025 22 JANUARY 2025 MAY 2021*

State Emergency Management Committee Business Unit

NOTE: The comprehensive review is on hold. The review will be carried out as a result of the LEMA Pilot Program.

Once printed, this is an uncontrolled version of the document. The current version is available on the State Emergency Management Committee website.

Amendment Table

Summaries and detailed logs of amendments made after 2020 can be found on the <u>SEMC website</u>. Historical reviews and amendment logs may be requested from the above contact.

Date	Details	Amended by		
Nov 2009	Initial issue	SEMC		
May 2016	Statement of fact amendments	SEMC Secretariat		
December 2016 - May 2018				
December 2018 - December 2020	Amendments approved by SEMC: December 2018: Resolution Number 90/2018; amendments table v02.00 May 2019: Resolution Number 41/2019; amendments table v02.01 October 2019: Resolution Number 91/2019); amendments table v02.02 December 2020: Resolution Number 84/2020) as per amendments table v02.06	SEMC Business Unit		
December 2022	Version 02.04 - Amendments approved by SEMC Executive Officer (Resolution Number 17/2021). Statement of fact changes and updated hyperlinks to new SEMC website as per amendments table December 2022.	SEMC Business Unit		
October 2023	Version 02.05 - Consequential amendments approved by SEMC to reflect the change in terminology from 'welfare' to 'emergency relief and support' and related terms (resolution number 77/2023) and statement of fact and accessibility amendments approved by the SEMC Executive Officer (resolution number 17/2021) as outlined in State EM documents amendments table October 2023.			
January 2025	Version 2.06 - Approved by the Deputy SEMC Executive Officer, the guideline and model LEMA template were migrated into accessible format in line with SEMC resolution 32/2021 and as outlined in the January 2025 State EM Documents amendments table.	SEMC Business Unit		

Acknowledgements

The SEMC acknowledges the Aboriginal peoples throughout the state of Western Australia as the Traditional Custodians of the lands where we live, work and volunteer. We recognise Aboriginal peoples' continued connection to land, waters and community, and pay our respects to Elders both past and present.

This document was designed to be viewed electronically and aims to meet the West Australian Government's accessibility and inclusivity standard, including meeting the World Wide Web Consortium's Web Content Accessibility Guidelines version 2.1 (WCAG 2.1) at level AA. Foreword

Western Australia is subject to a variety of hazards that have the potential to cause loss of life and/or damage and destruction. These hazards result from events of both natural and man-made origin. The *Emergency Management Act 2005* (EM Act) formalises Western Australia's emergency management arrangements.

Under the EM Act, local governments are required to have local emergency management arrangements. Local governments are the closest level of government to their communities and have access to specialised knowledge about the local environment and demographic features of their communities. Effective local emergency management arrangements enhance the community's resilience and preparedness for emergencies through strategies that apply prevention/mitigation, preparedness, response and recovery measures.

In addition to ensuring that effective local emergency management arrangements are prepared and maintained and managing recovery following an emergency in its district, each local government is required to establish and maintain a local emergency management committee (LEMC). The LEMC is to provide advice and guidance to the local government relating to the development, maintenance and testing of their local emergency management arrangements.

Part One: About this Guideline

How to use this Guideline

The purpose of this guideline is to provide a resource to assist local government and local emergency management committees to meet their obligations under the *Emergency Management Act 2005* (EM Act) and develop compliant, effective and contemporary emergency management arrangements based on best practice principles.

This guideline has principally been developed for local government because local government is responsible for the administration of local emergency management committees. This guideline recognises that:

- local governments have legislated and non-legislated roles and functions within their community, both related and un-related to emergency management
- a range of agencies and organisations are members of the local emergency management committee (LEMC) and it is the partnership arrangements that support and develop community resilience
- the activities of the LEMC are important to develop community resilience.

This guideline provides a summary of the actions you need to take to comply with the EM Act and the suite of State emergency management documents (listed below).

To support this guideline, a **model Local Emergency Management Arrangements template** (Microsoft Word document) can be found on the <u>SEMC Website</u>. While this guideline and template provide best practice principles, you will need to tailor the final document to the needs of your local government. You may include any additional information that will enable your local government to support the community in times of emergency.

This document is to be read in conjunction with the following suite of State Emergency Management (EM) documents:

- State Emergency Management Policy (State EM Policy)
- State Emergency Management Plan (State EM Plan)
- Relevant State Hazard Plans
- State Emergency Management Procedures (State EM Procedures)
- · State Emergency Management Guides and Guidelines (State EM Guidelines)
- State Emergency Management Glossary (State EM Glossary).

It should be noted that the State EM Procedures are divided into Prevention, Preparedness, Response and Recovery sections, with individual procedures referred to as 'State EM Prevention Procedure', 'State EM Preparedness Procedure', 'State EM Response Procedure' and 'State EM Recovery Procedure', as applicable.

About Local Emergency Management Arrangements

The term Local Emergency Management Arrangements (LEMA) refers to the collection of all of the emergency management documentation, systems, processes, agreements and memorandums of understanding which affect the local government district. The LEMA are the overarching document and associated sub-plans which the local government is responsible for developing, maintaining and testing.

This document is structured as a main document with appendices; however you may like to think about using a more modular design with 'take-away' sections for use in certain situations. Figure 1 shows a modular LEMA structure.

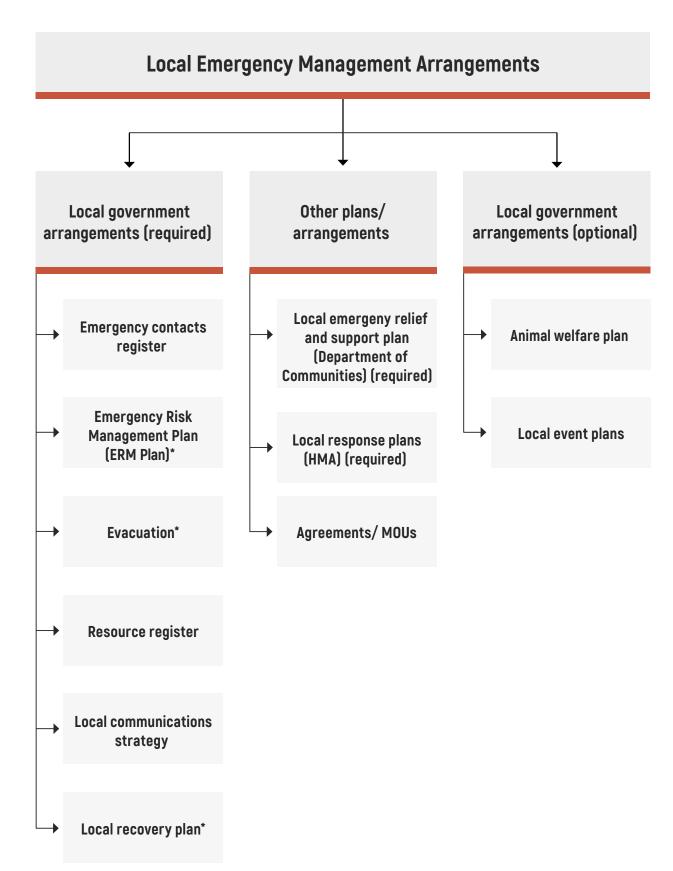

Figure 1. Modular LEMA structure example.

This diagram represents the comprehensive nature of EM planning.

*Additional guidelines are available on the <u>SEMC website</u> to assist with developing an emergency risk management plan, community evacuation plan, and local recovery plan.

Approval Process

The LEMA should be drafted by the local government after consultation from a broad range of stakeholders, including DEMC members. The suite of documents must be endorsed by the LEMC and local government, then noted by the relevant DEMC and the SEMC, before the local government is deemed consistent with the requirements of the legislation and policy. This approval process is depicted in figure 2, below:

Local Government Endorsed

- document written by local government with advice from LEMC
- document checked for compliance with requirements by the District Emergency Management Advisor
- endorsed by LEMC
- endorsed by Council.

Figure 2. Approval process for LEMA

Refer to State Emergency Management Preparedness Procedure 3.8 – Local Emergency Management Arrangements for more information.

Noted by DEMC

- advice given during drafting process
- final document noted by DEMC
- DEMC sends document to SEMC.

Noted By SEMC

- document checked for requirements by the SEMC Business Unit
- noted by SEMC
- SEMC sends confirmation of noting to local government
- LEMC sends document to DEMC.

9

Review Process

The Local Government must ensure the LEMA is reviewed regularly, including:

- after an event or incident that requires the activation of an Incident Support Group (ISG) or significant recovery coordination
- · after training or drills that exercise the arrangements
- every five (5) years
- any other time the local government considers appropriate.

A review might be a 'light touch', or statement of fact change with minor amendments, or there may be major updates required.

- If a major review occurs, the full approval process should be completed (as described in figure 2).
- If only minor amendments are required, the local government is to make amendments and distribute copies to the LEMC, DEMC and SEMC Business Unit.

State Emergency Management Preparedness Procedure 3.8 – Local Emergency Management Arrangements details the LEMA Review process, depicted in figure 3, below:

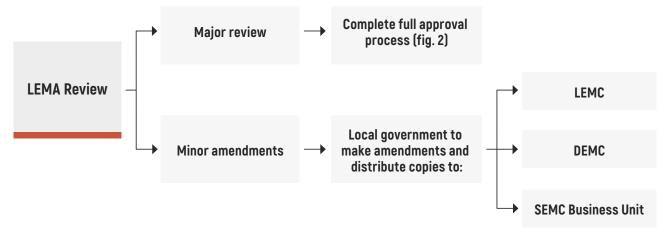

Figure 3. Review process for LEMA

Non-completion or Non-adherence by Local Government

The State Emergency Management Committee acknowledges the legislative requirement for local government to have appropriate local emergency management arrangements established for their district.

SEMC has established a non-compliance process to address instances where a local government is not fulfilling its obligations under the EM Act. Issues which may cause the non-completion or non-adherence process (refer Figure 4) to be implemented include the following:

- · LEMA not been developed or reviewed in a timely fashion
- · LEMA are not consistent with policy, for example does not include a Local Recovery Plan and/or
- · apparent lack of engagement by local government.

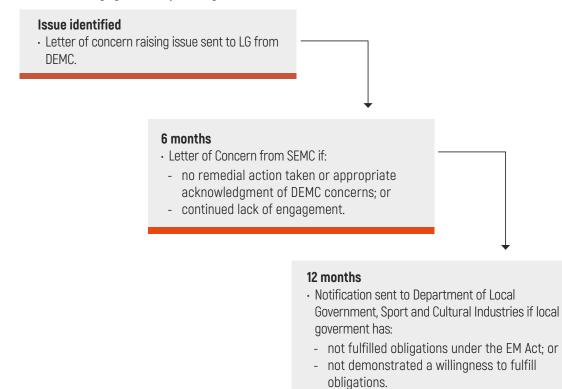

Figure 4. Non-completion or non-adherence process (described below)

If an issue is identified, a letter of concern raising issue is sent to the local government from the DEMC.

At 6 months, a letter of concern is sent from SEMC if:

- no remedial action is taken or appropriate acknowledgment of DEMC concerns; or
- continued lack of engagement.

At 12 months, notification is made to Department of Local Government, Sport and Cultural Industries that local government has:

- not fulfilled obligations under the EM Act; or
- not demonstrated a willingness to fulfill obligations.

Part Two:

Develop the Local Emergency Management Arrangements

Foreword

As seen in the model LEMA template, the following sections are included within the foreword:

Statement of Authority and Approval

An example is provided within the model LEMA template. The example suggests adding in the local government logo and a statement describing the authority of the document:

These arrangements have been produced and issued under the authority of section 41(1) of the *Emergency Management Act 2005*, endorsed by the <update> Local Emergency Management Committee and the Council of the <Local government>. The Arrangements have been tabled for noting with the <update> District Emergency Management Committee and State Emergency Management Committee.

The model LEMA template suggests including dates of the LEMC approval and Council endorsement.

Table of Contents

An example is provided within the model LEMA template.

Distribution List

An example is provided within the model LEMA template. This list may also be inserted as an appendix. The example suggests including the name of the organisation and number of copies required.

Amendment Record

An example is provided within the model LEMA template or at the beginning of this guideline. The example suggests including the amendment date, summary and author; however it is recommended use your usual document tracking process.

Glossary of Terms

Include a glossary of terms within the foreword or as an appendix to align with your document structure.

Terminology used throughout this document has the meaning as prescribed in either section 3 of the Emergency Management Act 2005 or as defined in the State EM Glossary.

District: an area of the State that is declared to be a district under section 2.1 Local Government Act 1995.

Municipality: the district of the local government.

Acronyms

Insert a list of acronyms used within your arrangements within the foreword or as an appendix to align with your document structure. Common acronyms used within LEMA are shown in the table below:

Acronym	Term
BFS	Bush Fire Service
CEO	Chief Executive Officer
Communities	Department of Communities
DBCA	Department of Biodiversity, Conservation and Attractions
DEMC	District Emergency Management Committee

Table 1. Acronyms

Acronym	Term			
ECC	Emergency Coordination Centre			
EM	Emergency Management			
DFES	Department of Fire and Emergency Services			
НМА	Hazard Management Agency			
ISG	Incident Support Group			
LEC	Local Emergency Coordinator			
LEMA	Local Emergency Management Arrangements			
LEMC	Local Emergency Management Committee			
LRC	Local Recovery Coordinator			
LRCC	Local Recovery Coordination Group			
SEC	State Emergency Coordinator			
SEMC	State Emergency Management Committee			
SES	State Emergency Service			
SEWS	Standard Emergency Warning Signal			
SOP	Standard Operating Procedures			

Introduction

As seen in the model LEMA template, the following sections are reccommended to be included within the introduction section of the Local Emergency Management Arrangements.

Community Consultation

Briefly document the local community consultation process during the development and review of the arrangements.

Consultation with the community should be inclusive (where appropriate) of specific sectors of the community including but not limited to, individuals and groups that are able to advocate for people who may need additional assistance during an emergency, this should include Aboriginal peoples or CALD groups and industry representatives.

Document Availability

Include a statement advising that copies of arrangements are available at the local government offices (include physical address) free of charge during office hours. Arrangements may be made available in print or electronic format. An example statement is provided below and within the model LEMA template.

Copies of these arrangements can be found free of charge during office hours at the local government's administration office or on the local government website:

- <Local government> Administration Office Address
- <Local government> Website (insert link).

Aim

Include a statement that covers the aim of the local government for these arrangements.

Purpose

The following is an example of an appropriate statement of purpose.

The purpose of these emergency management arrangements is to set out:

- (a) the local government's policies for emergency management
- (b) the roles and responsibilities of public authorities and other persons involved in emergency management in the local government district
- (c) provisions about the coordination of emergency operations and activities relating to emergency management performed by the persons mentioned in paragraph b)
- (d) a description of emergencies that are likely to occur in the local government district
- (e) strategies and priorities for emergency management in the local government district
- (f) other matters about emergency management in the local government district prescribed by the regulations
- (g) other matters about emergency management in the local government district the local government considers appropriate. (s.41(2) of the *Emergency Management Act 2005* (EM Act)).

Scope

The following is an example of information to describe the scope of the arrangements.

These arrangements are to ensure the community is prepared to deal with the identified emergencies should they arise. It is not the intent of this document to detail the procedures for HMAs in dealing with an emergency. These should be detailed in the HMAs' individual plans.

Furthermore:

- This document applies to the local government district of the <local government>.
- This document covers areas where the <local government> provides support to HMAs in the event of an incident.
- This document details the <local government> capacity to provide resources in support of an emergency, while still maintaining business continuity; and the <local government> responsibilities in relation to recovery management.

These arrangements are to serve as a guideline to be used at the local level. Incidents may arise that require action or assistance from district, state or federal level.

Geographic area covered

Provide general information regarding the geographic area that the local emergency management arrangements cover. A detailed map can be provided within an appendix, as suggested by the Appendix F: Map of the District placeholder.

Related Documents and Arrangements

Local emergency management policies

Document any local government emergency management policies here.

Local government policies for emergency management refer to any policies which are unique to that local government area for example, by laws or operational policies.

Existing plans and arrangements

Reference any relevant plans and arrangements that exist for the area. These could include specific hazard plans, special event plans, public building evacuation plans, hospital and school emergency management plans and Emergency Risk Management plans and so on.

Local plans

Ensure details include the ownership, location and currency or expiry dates for these plans. An example table is provided within the model LEMA template.

Agreements, understandings and commitments

Record any agreements between your local government and other local governments, organisations or industries in relation to the provision of assistance during times of need.

Table 2. Example agreements, understandings and commitments table

Party 1	Party 2	Summary of the Agreement	Special Considerations	
Local	Local	Summary of assistance from Local	Major influx of tourists during summer months	
Government A	Government B	Government A to Local Government B		

Special Considerations

Document any specific factors may impact emergency management arrangements such as:

- Major influxes of tourists
- Large public events
- · Seasonal conditions e.g. bushfires, cyclones

An example table can be found at Part Seven: Appendix I – Special Considerations.

Part Three:

Identify Resources, Roles and Responsibilities

Local Resources

Summarise the local resources available that may support response, emergency relief and support activities and recovery.

Resources should be captured and included in the resources register, as found at Part Seven: Appendix D. Depending on the sensitivity of the information in the resource register, a detailed resource register may be referenced within the arrangements, describing how emergency management agencies can request or obtain access.

When developing your list of resources consider not only LEMC member agency resources but also community, industry and commercial resources that may be available.

Consider highlighting any resource deficiencies and logistical issues such as time taken to mobilise resources to remote locations or the limited access to local resources, for example:

- Process for accessing a grader owned by a local government if it is committed elsewhere or an operator is unavailable.
- Resources may need to be sought from outside the local government area for example machinery available on pastoral stations.

Consider incorporating resource owners within your contact list or within this section.

Table 3. Example resource contacts

Resource	Company	Contacts
Buses	XYZ Bus Hire	9987 6543 Bill Jones (Manager)
Graders	ABC Machinery Hire	9789 4563 Rozálie Zarubová (Owner)

Local Roles and Responsibilities

Detail the specific roles and responsibilities for officers in the local government area. Add any localised roles and responsibilities in addition to the ones suggested below.

Table 4. Local roles and responsibilities

Local Role	Description of Responsibilities
Local government	The responsibilities of the <local government=""> are defined in section 36 of the \underline{EM} Act.</local>
Local emergency coordinator	The responsibilities of the LEC are defined in section 37 of the <u>EM Act</u> .
Local recovery coordinator To ensure the development and maintenance of effective recovery management arrangements for the local government. In conjunction v local recovery committee to implement a post incident recovery action and manage the recovery phase of the incident.	
LG welfare liaison officer	During an evacuation where a local government facility is utilised by the Department of Communities provide advice, information and resources regarding the operation of the facility.
LG liaison officer (to the ISG/IMT)	During a major emergency, the liaison officer attends ISG meetings to represent the local government and provide local knowledge input and details in the LEMA.
Local government – Incident management	 Ensure planning and preparation for emergencies is undertaken Implement procedures that assist the community and emergency services deal with incidents Ensure all personnel with emergency planning and preparation, response and recovery responsibilities are properly trained in their role Keep appropriate records of incidents that have occurred to ensure continual improvement of the Shires emergency response capability. Liaise with the incident controller (provide liaison officer) Participate in the ISG and provide local support Where an identified evacuation centre is a building owned and operated by local government, provide a liaison officer to support the Department of Communities.

LEMC Roles and Responsibilities

The <Local Government> has established a Local Emergency Management Committee (LEMC) under section 38(1) of the EM Act to oversee, plan and test the local emergency management arrangements.

The LEMC includes representatives from agencies, organisations and community groups that are relevant to the identified risks and emergency management arrangements for the community.

The LEMC is not an operational committee but rather the organisation established by the local government to assist in the development of local emergency management arrangements for its district.

The LEMC plays a vital role in assisting our communities become more prepared for major emergencies by:

- Developing, enhancing and testing preparedness planning from a multi-agency perspective having local knowledge of hazards, demographic and geographic issues; they provide advice to Hazard Management Agencies to develop effective localised hazard plans
- · providing a multi-agency forum to analyse and treat local risk
- providing a forum for multi-agency stakeholders to share issues and learnings to ensure continuous improvement.

The LEMC membership must include at least one local government representative and the Local Emergency Coordinator. Relevant government agencies and other statutory authorities will nominate their representatives to be members of the LEMC.

The term of appointment of LEMC members shall be determined by the local government in consultation with the parent organisation of the members.

Table 5. LEMC roles and responsibili

Local Role	Description of Responsibilities					
LEMC Chair	Provide leadership and support to the LEMC to ensure effective meetings and high levels of emergency management planning and preparedness for the local government district is undertaken.					
LEMC Executive Officer	 Provide executive support to the LEMC by: Provide secretariat support including: Meeting agenda Minutes and action lists Correspondence Committee membership contact register. Coordinate the development and submission of committee documents in accordance with legislative and policy requirements including: Annual Report Annual Business Plan Local Emergency Management Arrangements. Facilitate the provision of relevant emergency management advice to the Chair and committee as required Participate as a member of sub-committees and working groups as required. 					

Agency Roles and Responsibilities

In the event of an emergency, the local government will need to liaise with a range of State agencies who will be involved in the operational aspects of the emergency. The following table summarises the key roles.

Table 6. Agency roles and responsibilities

Agency Roles	Description of Responsibilities			
Controlling Agency	 A Controlling Agency is an agency nominated to control the response activities to a specified type of emergency. The function of a Controlling Agency is to: undertake all responsibilities as prescribed in Agency specific legislation for Prevention and Preparedness. 			
	 control all aspects of the response to an incident. 			
	 During Recovery the Controlling Agency will ensure effective transition to recovery. 			
	 A hazard management agency is 'to be a public authority or other person who or which, because of that agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for emergency management, or the prescribed emergency management aspect, in the area prescribed of the hazard for which it is prescribed.' [s. 4 EM Act]. 			
Hazard Management	 The HMAs are prescribed in the Emergency Management Regulations 2006 (EM Regulations). Their function is to: 			
Agency (HMA)	 Undertake responsibilities where prescribed for these aspects [EM Regulations] 			
	– Appoint Hazard Management Officers [s. 55 EM Act]			
	– Declare / revoke emergency situation [s. 50 & 53 EM Act]			
	 Coordinate the development of the State Hazard Plan for that hazard [State EM Policy section 1.5] 			
	- Ensure effective transition to recovery by local government			
Combat Agency	 A Combat Agency as prescribed under subsection (1) of the EM Act is to be a public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for performing an emergency management activity prescribed by the regulations in relation to that agency. 			
Support Organisation	 A public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources is responsible for providing support functions in relation to that agency. (State EM Glossary) 			

Part Four:

Describe Local Emergency Risk Management Process

Emergency Risk Management

Risk management is a critical component of the emergency management process. Building a sound understanding of the hazards and risks likely to impact the community enable local governments and LEMCs to work together to implement treatments. This process helps to build the capacity and resilience of the community and organisations which enable them to better prepare for, respond to and recover from a major emergency. The process and mandate for local governments to undertake risk management is detailed in State EM Policy section 3.2. The Emergency Risk Management Guideline and related risk management tools for local government are available on the <u>SEMC website</u>.

On completion of the emergency risk assessment process, you will create a risk register complete with the treatment strategies required and an outline of the risk assessment process undertaken. Describe the current status of your emergency risk management process. This should include date completed or any plans to conduct a review.

Include a current risk register as an appendix to this set of arrangements, as found in Part Seven: Appendix C. If you have used the SEMC Risk Register it may not fit as an appendix, as it is a large spreadsheet and may contain sensitive information. Reference how to access the risk register and summarise the risks within this section.

If you have recently conducted the emergency risk management process, one of the outputs should have identified critical infrastructure in your community and its vulnerability to hazards. The critical infrastructure should be captured within this section, or as an appendix. An example table is provided at Part Seven: Appendix A – Critical Infrastructure.

Description of emergencies likely to occur

Identify the hazards that are likely to cause an emergency within the local government area. These should be derived from the local emergency risk management process. An example table is provided to describe the emergency management arrangements in place for the identified hazards.

Hazard	Controlling Agency	НМА	Local Combat Roles	Local Support Roles	State Hazard Plan	Local Plan (Date)
Flood	DFES	DFES	<insert local<br="">combat roles></insert>	<insert local<br="">support roles></insert>	Severe Weather	01/01/2024

Table 7. Example table of emergencies likely to occur in local area

These arrangements are based on the premise that the Hazard Management Agency and Controlling Agency are responsible for the above risks and will develop, test and review appropriate emergency management plans for their hazard.

Emergency management strategies and priorities

Once you understand the risks in your local area, document the priorities you have for addressing these risks and the strategies or treatments that you intend to apply.

Table 8. Example table of local emergency management strategies and priorities

Priority	Strategy
Priority 1	Strategy 1

Part Five:

Describe Local Response and Recovery Arrangements

Coordination of Emergency Operations

It is recognised that the HMAs and combat agencies may require local government resources and assistance in emergency management. The <local government> is committed to providing assistance/ support if the required resources are available through the Incident Support Group when and if formed.

Incident Support Group

The Incident Support Group (ISG) is convened by the Controlling Agency appointed Incident Controller to assist in the overall coordination of services and information during a major incident. Coordination is achieved through clear identification of priorities by agencies sharing information and resources.

The role of the ISG is to provide support to the incident management team. The ISG is a group of people represented by the different agencies who may have involvement in the incident.

Triggers for an ISG

The triggers for an incident support group are defined in State EM Policy statement 5.2.2 and State EM Plan section 5.1. These are:

- · where an incident is designated as Level 2 or higher
- multiple agencies need to be coordinated.

Membership of an ISG

The Incident Support Group is made up of agencies' representatives that provide support to the Controlling Agency. Emergency Management Agencies may be called on to be liaison officers on the Incident Support Group.

The recovery coordinator should be a member of the ISG from the onset, to ensure consistency of information flow, situational awareness and handover to recovery.

The representation on this group may change regularly depending upon the nature of the incident, agencies involved and the consequences caused by the emergency.

Agencies supplying staff for the ISG must ensure that the representative(s) have the authority to commit resources and/or direct tasks.

Frequency of ISG meetings

The frequency of ISG meetings will be determined by the Incident Controller and will generally depend on the nature and complexity of the incident. As a minimum, there should be at least one meeting per incident. Coordination is achieved through clear identification of priorities and objectives by agencies sharing information and resources.

Location of ISG meetings

The Incident Support Group meets during an emergency and provides a focal point for a coordinated approach.

Identify suitable locations for an ISG meeting within this section or list within an Appendix as shown in Part Seven: Appendix H.

Media Management and Public Information

Communities threatened or impacted by emergencies have an urgent and vital need for information and direction. Such communities require adequate, timely information and instructions in order to be aware of the emergency and to take appropriate actions to safeguard life and property. The provision of this

information is the responsibility of the Controlling Agency.

Public warning systems

During times of an emergency one of the most critical components of managing an incident is getting information to the public in a timely and efficient manner. This section highlights local communication strategies.

Local systems

Do you have any local systems in place, such as:

- · basic SMS or pager, what is the extent of this service, what are its benefits and limitations
- · Community notice boards
- Public information phone lines
- Websites.

Include the contact details for media outlets such as all local radio stations, newspapers & TV media.

Complete the table at Part Seven: Appendix J – Local Public Warning Systems with the required detail.

Funding Arrangements

Example content is provided below:

State EM Policy section 5.12, State EM Plan section 5.4 and 6.10 and State EM Recovery Procedures 1-2) outlines the responsibilities for funding during multi- agency emergencies. While recognising the above, the < local government > is committed to expending such necessary funds within its current budgetary constraints as required to ensure the safety of its residents and visitors. The Chief Executive Officer should be approached immediately an emergency event requiring resourcing by the < local government> occurs to ensure the desired level of support is achieved.

Evacuation Arrangements

Comprehensive emergency management planning should involve planning for community evacuations. Although the actual act of evacuating a community is the responsibility of the HMA or Controlling Agency (where authorised by the HMA), the local government with the assistance of its LEMC is responsible pre-emergency evacuation planning.

An evacuation plan for local government, whether it is part of a LEMA or a stand-alone document, is of considerable value to all agencies with a potential role in an evacuation and needs to be easily available to the Controlling Agency and/or HMA in an emergency to support informed decisions in a timely manner.

Referencing relevant evacuation plans from adjoining local areas may assist where the impact of a hazard may not be confined to the local government boundaries and may offer the most suitable evacuation options for some emergencies.

To assist with emergency evacuation planning SEMC has endorsed the Western Australian Community Evacuation in Emergencies Guideline which has a section on pre-emergency evacuation planning for local governments and LEMCs and dot point items for consideration.

Evacuation centres

Identify evacuation centres and details within the arrangements or as an appendix. Part Seven: Appendix E -

Evacuation Centre Information provides additional information and an example is provided within the model LEMA template.

Evacuation of animals

This section should detail how animals would be dealt with during evacuation.

At-risk groups

This section should list 'at-risk' groups within your community. The purpose behind this is so that a Controlling Agency that is planning evacuation will be able to identify locations which require special attention or resources.

Examples may be:

- schools
- nursing homes
- childcare centres
- hospitals
- caravan parks & campgrounds
- persons with disabilities
- CaLD community.

Each section of the section of the community mentioned above should have their own evacuation arrangements, however you may need to confirm this with them.

Develop a table containing a list of special needs groups. Include physical location, contacts, size and whether current evacuation plans exist. An example is provided at Part Seven: Appendix B – At-Risk Groups.

Routes and Maps

This section provides a map of the locality and identifies any issues and local landmarks. Attach a map as an appendix as required.

Consider naming or highlighting any all-weather roads or roads subject to impact by a hazard and specific areas such as RFDS strips marked out on roads.

Emergency Relief and Support

The Department of Communities has the role of managing emergency relief and support services. The Department of Communities may have developed a Local Emergency Relief and Support Plan for your local government area.

If a plan is in place include it as an attachment to your Arrangements.

Local evacuation centre coordinator

The local evacuation centre coordinator is appointed by the Department of Communities District Director to:

- (a) Establish, chair and manage the activities of the Local Emergency Relief and Support Coordination Group, where determined appropriate by the District Director.
- (b) Prepare, promulgate, test and maintain the Local Emergency Relief and Support Plan.

27

- (c) Represent the department and the emergency relief and support function on the Local Emergency Management Committee and Local Recovery Committee.
- (d) Establish and maintain the Evacuation Centre.
- (e) Ensure personnel and organisations are trained and exercised in their emergency relief and support responsibilities.
- (f) Coordinate the provision of emergency relief and support services during response and recovery phases of an emergency.
- (g) Represent the department on the Incident Management Group when required.

Identify and list the names in the contact lists. (This individual will be appointed by Department of Communities).

Local government liaison officer

The local government liaison officer is nominated by the local government to coordinate welfare response during emergencies and liaise with the Local Evacuation Centre Coordinator.

Local government should appoint a liaison officer. This role will provide assistance to the Local Evacuation Centre, including the management of emergency evacuation centres such as building opening, closing, security and maintenance.

It is important to identify the initial arrangements for emergency relief and support to occur, particularly in remote areas, where it may take some time for Department of Communities to arrive.

Identify and list the names in the contact list.

Register.Find.Reunite

When a large-scale emergency occurs and people are evacuated or become displaced, one of the areas Department of Communities has responsibility for is recording who has been displaced and placing the information onto a National Register. This primarily allows friends or relatives to locate each other. Because of the nature of the work involved Department of Communities have reciprocal arrangements with the Red Cross to assist with the registration process.

Identify if a Red Cross unit operates in your community and if they are able to conduct the registration process.

Recovery

Managing recovery is a legislated function of local government and the Local Recovery Management Plan is a compulsory sub-plan of the LEMA. To support the development of the recovery plan the SEMC has endorsed the Local Recovery Guideline. The guideline will assist local governments to undertake the recovery planning process.

Once you have completed your Local Recovery Plan, insert the document into these arrangements.

Local recovery coordinator

Local governments are required to nominate a local recovery coordinator. Local recovery coordinators are to advise and assist local government and coordinate local recovery activities as outlined in State EM Policy section 6, State EM Plan section 6 and State EM Recovery Procedures 5.1-5.4.

Identify and list the names in the contact list.

Part Six:

Describe Exercising, Reviewing and Reporting Arrangements

Exercise Local Emergency Management Arrangements The aim of exercising

Testing and exercising is essential to ensure that emergency management arrangements are workable and effective. Testing and exercising is important to ensure individuals and organisations remain aware of what is required of them during an emergency response situation.

The exercising of a HMA's response to an incident is a HMA responsibility however it could be incorporated into the local government exercise.

Exercising the emergency management arrangements will allow the local government to:

- · Test the effectiveness of the local arrangements
- Bring together members of emergency management agencies and give them knowledge of, and confidence in, their roles and responsibilities
- · Help educate the community about local arrangements and programs
- Allow participating agencies an opportunity to test their operational procedures and skills in simulated emergency conditions
- Test the ability of separate agencies to work together on common tasks, and to assess effectiveness of co-ordination between them.

Frequency of exercises

State EM Policy section 4.8, State EM Plan 4.7 and State EM Preparedness Procedure 19 outline the State's arrangements for EM exercising, including the requirement for local governments to exercise on an annual basis. Additionally, LEMAs must be validated through exercise or activation within 12 months of any significant amendments made through a comprehensive or targeted review (State EM Policy section 1.5.10).

Types of exercises

Some examples of exercise types include:

- desktop/discussion
- a phone tree recall exercise
- opening and closing procedures for evacuation centres or any facilities that might be operating in an emergency
- · operating procedures of an emergency coordination centre
- locating and activating resources on the emergency resources register.

Reporting of exercises

Each local government reports their exercise schedule to the relevant DEMC prior to the start of the calendar year for inclusion in the DEMC report to the SEMC.

Once local government exercises have been completed, post-exercise reports should be forwarded to the DEMC as soon as practicable (State EM Policy section 4.11.3).

Review Local Emergency Management Arrangements

The Local Emergency Management Arrangements (LEMA) shall be reviewed in accordance with State EM Policy section 2.5 and amended or replaced whenever the local government considers it appropriate (section 42 of the EM Act). However, according to State EM Preparedness Procedure 3.8, the LEMA (including recovery plans) are to be reviewed and amended in the following situations:

- after an event or incident requiring the activation of an Incident Support Group or an incident requiring significant recovery coordination; and
- an entire review is undertaken every five (5) years, as risks might vary due to climate, environment and population changes.

Consider quarterly reviews of contact lists. (Refer to Part Seven: Appendix G – Contacts). Also consider reviewing arrangements after exercises.

Review of Local Emergency Management Committee positions

The local government, in consultation with the parent organisation of members shall determine the term and composition of LEMC positions.

Review of resources register

The Executive Officer shall have the resources register checked and updated on an annual basis, ongoing amendments occur at each LEMC meeting.

Annual Reporting

The annual report of the LEMC is to be completed and submitted to the DEMC within 2 weeks of the end of the financial year for which the annual report is prepared. The LEMC is required to submit a signed hard copy of the annual report to the Executive Officer of the DEMC (State EM Preparedness Procedure 3.17).

The information provided by the LEMC annual report is collated into the SEMC Annual Report which is tabled in Parliament.

The SEMC Business Unit will issue the annual report template.

Part Seven: Example Appendices

Content within these example appendices can be used within the body of the main LEMA document or as an appendix as appropriate.

Appendix A: Critical Infrastructure

Appendix A Table: Sample Critical Infrastructure Resources

ltem	Location	Description	Owner	Contact Details	Community Impact Description
Bridge	Bow St, 2km west of Main St	Road bridge over river	Shire of Timbuktu	9870 6543	Loss of access to sections of the community
Radio Repeater Station	Eagle Hill, View Terrace	Radio Repeater Tower for WAERN, WA Police Force, CB	XXXX	9870 6543	Loss of emergency services communication

Modify and adapt the table to reflect local government requirements; engagement with the LEMC may determine other items. Suggested items to include:

Utilities

- · Power
- Water
- Phone (towers, exchanges) Gas
- Sewage

Transport

- Road
- Rail
- Bridges
- Ports/marine

Communication

- Radio commercial & private/ closed network
- Television

Appendix B: At-Risk Groups

Appendix B Table: Sample At-risk group register

Name	Description	Address	Contact 1	Contact 2	Number of People	Details
Mt Nameless Primary	Primary School	123 Sesame St, Nameless WA	Mr B. Bird, Principal 987 6543	Ms O. Grouch Deputy Principal 987 6542	53 student 6 staff	Do they have an evacuation plan? Who manages the plan? Has a copy been provided to the LEMC?

Appendix C: Risk Register

Insert the risk register.

Appendix D: Resource Register

Insert the resource register. Suggested information to include for each entity able to share resources:

- · Name of Shire, organisation, entity, agency, pastoralist etc.
- Resources Schedule
- · Plant and equipment resources:
- Location:
- Contact(s):
- Contact details:

Suggested items to display within a table for each resource entity:

- Item description:
- Number of items:

Appendix E: Evacuation Centre Information

Reference or attach your Department of Communities' Local Emergency Relief and Support Plan if evacuation centre information is included within this plan. A summary of evacuation centres may be included as shown in the model LEMA template.

The <u>WA Community Evacuation in Emergencies Guideline</u> may also assist with the development of evacuation centre information.

Appendix F: Map of the District

Insert the map of the district.

Appendix G: Contacts

Note: When developing your contact lists also consider contacts outside the LEMC such as Pastoral Station owners who may need to be contacted during an emergency but may not sit on the LEMC.

Suggested information to include:

- Name
- Organisation
- Address
- Phone
- Mobile
- Email
- Fax

Appendix H: Incident Support Group Meeting Locations

Suggested items to include for two or more potential ISG meeting locations:

- Address
- Facilities available
- · Contact details to access the meeting location (1st and 2nd contact details).

Appendix I: Special Considerations

Appendix I Table: Special considerations/events register

Description	Time of Year	Impact / No of People
Post-harvest season	December – February	Reduced number of volunteers available within the community
Big Annual Concert	June each year	Influx of approx. 2000 visitors to the Shire.

Appendix J: Local Public Warning Systems

Appendix J Table: Local public warning system register

Description	Contact Person	Contact Number
Shire Bushfire SMS System	Shire contact	987 6543
Public Notice Board – Big Street Mall	Shire contact	345 6789
