

Airflite Defence Services has enjoyed a long association with the Commonwealth of Australia in support of Defence capability, resulting in a mature organisation that is highly experienced in meeting the needs of Australian and international Defence programs.

Many individuals in Airflite have strong Defence backgrounds, including significant experience in both rotary and fixed wing aircraft maintenance.

Airflite's current aviation maintenance programs operate under DASR Part 145.

In addition, Airflite is a Registered Training Organisation (RTO 52904) and CASA Part 141 & 142 approved trainer, providing integrated pilot training programs, which include ground school, basic and advanced flying phases, customisable to meet the objectives of Ab Initio Military Flying Training.
